SIGNATURE	BP – BRANCH PRESIDENT
	Mr. Mario Poltronieri

MITSUBISHI ELECTRIC EUROPE – Italian Branch, according to the MITSUBISHI ELECTRIC CORPORATION environmental commitment and MITSUBISHI ELECTRIC EUROPE Environmental Policy, considers environmental protection as a strategic issue for business, pursuing environmental sustainability for processes and offices. This commitment is ensured by endorsing the following principles:

COMPLIANCE

MITSUBISHI ELECTRIC EUROPE – Italian Branch commits to ensure total compliance to environmental laws and regulations and to prevent environmental pollution; compliance to UNI EN ISO 14001:2015 requirements is a key target for the Company. This target is achieved and maintained also through dedicated training sessions in order to improve organization's behaviors.

PREVENTION

MITSUBISHI ELECTRIC EUROPE – Italian Branch through high-efficiency products and technologies, with an innovative energy-saving approach, commits to minimize every environmental risk related to the Company's activities. Furthermore, in order to prevent pollution and to guarantee a quick response to emergencies, with the purpose of safeguarding the Company's employees and the environment, implements appropriate procedures for managing environmental aspects.

COMMUNICATION

MITSUBISHI ELECTRIC EUROPE – Italian Branch communicates the Company's environmental commitment to employees, customers, suppliers and stakeholders with the goal of improving their environmental awareness.

CONTINUOUS IMPROVEMENT

MITSUBISHI ELECTRIC EUROPE – Italian Branch commits to develop more sustainable lifestyles for present and future generations, identifying real and measurable targets in order to improve the Company's environmental performances, and ensuring the appropriate amount of resources for reaching those targets, supporting MELCO's Global Environmental Plan and Environmental Sustainability Vision 2050.

Environmental Policy is spread at each level of the Organization, in order to raise awareness of the whole staff to work in an efficient and effective way, according to the targets established by the Top Management. Environmental Policy is also spread to all the stakeholders with the goal to increase their sustainability and environmental awareness.
